

Alumni Games Count

Dickering

Putnam County Sentinel – By Richard E. Laudick, Jr. - February 17, 1956

A minor dispute has arisen among basketball fans and coaches as to whether results of alumni games should be added to the season records of high school teams.

Fans from Miller City and Leipsic are all in favor of dropping them from otherwise excellent records this year as each lost by a narrow margin to their grads during the past season.

Meanwhile, Ottawa Public fans definitely want theirs counted because they whipped their alumni.

The question has been settled by a ruling from H. W. Emswiller, head of the Ohio High School Athletic Association.

Emswiller ruled that any alumni games where admission is charged and referees are hired definitely must be counted in the records and that they are also charged against the number of games which a team is allowed to play during a season.

Therefore, the alumni games of these three teams go on this year's record.

Maybe next year the alumni won't be so hard on their younger brothers!
