

Basketball at Jennings

High School Start Team for First Time

Putnam County Sentinel – September 29, 1939

Fort Jennings High School is making preparations to place a basketball team in the county high school league this season. It will be the first time that Fort Jennings will be represented by a high school basketball team.

Superintendent Clarence Specht will coach the team and announces that cage practice will start within another week. The school plans a schedule of approximately twelve games.

The team will start its practices with no former experience on the basketball court, but despite this handicap the boys are exceedingly interested in the sport, and hope to give their opponents a good run, even if they are just beginners. The first game will probably be between Fort Jennings and Ottoville the latter part of November.
