

Beginning of Basketball in Leipsic

High School resembles a flock of sheep!

Leipsic Free Press – Harry E. Young – October 2, 1913

Boost basketball and football. These sports have been buried here for years. Clamp your glims on a few of the huskies in the Junior and Senior classes and you can't help but let the old idea, about no timber for football, slip totally out of your bean. Basketball can be enjoyed by all, but first comes the room question. Say! Of all the slumbering Willies, hasn't someone the nerve to at least mouth a vague plan to cover that difficulty. If not, here goes! We have in mind six suitable vacant rooms. Surely favorable

terms could be reached on one. As to expenses, H.S. has a basketball and there seems to be a vague lingering somewhere within the compass of our mind that public socials were held at different times. Once in a while, a high school resembles a flock of sheep. All she needs is to have someone take the lead, the rest follow. After the affair is started admission fees will practically cover the expenses and we will have a sport in which boys and girls alike can participate.
