

Continental Beats Belmore 102-7

Continental News Review - February 16, 1922

Before the largest crowd of the season, Continental high boys romped away to a 102 to 7 victory over Belmore High Friday night. Being new at the game, the Belmore boys furnished such slight opposition that the game developed into nothing but signal practice for the locals. All of the squad got a chance to try their hands and nine substitutions were made by Continental coaches during the game. Although decidedly outclassed and hopelessly beaten, the Belmore lads proved to be good sportsmen, as not once during the game did they resort to roughness. It takes a good sport to take such a beating without losing his temper.

Totals	3	1	7

This article was taken from the Continental News Review on February 16, 1922. This was the first time that a boys' team from Putnam County had scored more than 100 points in a game. It would not happen again until Columbus Grove scored 107 points against Ottawa Public in 1954.
