

# **Leipsic Girls' Basketball Preparing for 1931 Season**

Leipsic Free Press – October 23, 1930

## **Coed Basketballers Get Their First Call**

Last Thursday Coach Rebecca Camp, who will have charge of the girls' basketball teams, issued the first call for candidates for the teams and thirty-one girls signified their intention of trying out for positions.

Among the group were several from last year's squad and around these the coach should have no trouble in organizing a team that ably uphold the honors of Leipsic High School.

Year after year the coed teams from Leipsic have been far above the average and many times superior to any in the county. This year will be no exception and with the supervision of a coach who can give the girls full time, we are sure that neither Miss Camp or the school patrons, will have any reason to be ashamed of the teams percentage when the season ends next spring.

## **Girls Must Train**

We understand that Coach Camp will put her basketball squad through a special course of training this fall. The players will be required to observe training rules and keep in condition. The boy's squads have had the same requirement placed upon them for several years. Being able to stand the hard grind of the basketball season has made county champions, and we believe the Leipsic girls will be able to compete with any this year.
